ANGELIQUE KNAFO ANGELIQUE DE PARIS ON FASHION JEWELRY

WHY DO YOU WORK IN FASHION METALS?
 "I've been translating my designs in fashion metals and materials for the past 10 years for both price point and to maintain creative freedom. Artistic expression increases when there are no boundaries such as metal weight and cost. My philosophy is high fashion meets fine jewelry, and the fashion metals make our brand a fun and affordable for all women."

WHAT IS TRENDING NOW IN FASHION JEWELRY?
 "For the longest time, fashion jewelry was synonymous with false replicas of real jewels. Today it is so much more creative and has a look all its own. Contemporary, high-end, signed designer pieces have a long life span and could become tomorrow's in-demand and sought-after vintage."
